Re: Pond Concerns

Dear Scott,

The CSD Board has asked that I inform you that they have been hearing an increasing number of complaints from residents with regard to algae, duckweed and cattail growth in the ponds. This coincides with their personal observations.

While it is apparent that there have been attempts to maintain these growths, it appears that this year the infestation has been greater than before. While all the ponds are in various states of infestation, there are four that appear to have been totally overrun. They are the ponds by the 5<sup>th</sup> green, the 12<sup>th</sup> tee, the 16<sup>th</sup> fairway, and the 18<sup>th</sup> green.

In order that Board Members, in their oversight capacity of the ponds, may accurately respond to future questions from residents

on this matter it would be helpful if you could provide the District with a proposed maintenance schedule.

To insure that your maintenance operation can be completed in a timely manner I have directed CSD Maintenance Manager Hebard to promptly review and respond to your written maintenance proposals.

Sincerely,

Charlie Martin, GM  
Saddle Creek CSD
