August 6, 2010

Dana Mayo, General Manager  
JS West & Symons Propane  
564 West Stockton Street  
Sonora, CA 95370

Dear Mr. Mayo,

On August 4, 2010 one of the propane lines was damaged by a builder and repairs were made by your company.

According to our information the break occurred because your company, who had been called by the builder prior to any work being performed, did not mark the line that was damaged.

Residents who observed the repair activities expressed concern that your service personnel appeared to have problems locating the shut-off valve for the damaged area. These residents also questioned why the fire department was not notified of the propane leak.

As this type of incident is a community safety concern it will be scheduled for discussion at the August 17, 2010 CSD Board

Meeting. This meeting which will begin at 2:00 P.M. is held at the Saddle Creek Lodge. If your schedule permits your attendance at this meeting would be appreciated.

Sincerely,

Charlie Martin, GM  
Saddle Creek CSD
