

Saddle Creek Community Services District
Regular Board Meeting April 17, 2018

AGENDA SUPPORTING DATA

7. DISCUSSION AND ACTION ITEMS

- d. Approval of the 2018 Saddle Creek road improvements and authorization to issue the Notice to Bidders and secure project bids.

Recommended Motion

I move to approve the 2018 Saddle Creek road improvements and authorization to issue the Notice to Bidders and secure project bids.

Background

The Board of Directors authorized agreement with Willdan Engineering for the preparation of plans and specifications for the construction of the 2018 Road Improvements Project. The draft final design was completed in late March 2018, and has been under continued staff review as additional changes and clarifications have been made since that time. The plans and specifications have also been reviewed and excellent comments received from Director Roger Golden and community resident/Engineer Jon Lynch. Many changes and improvements were made to the final project design and specifications based on the comments from staff, Lynch and Golden.

Final revisions to the project documents were being made up until the end of April 13, 2018 so Willdan requires until Monday to deliver the final documents to the District. Staff has thoroughly reviewed the documents and is fully aware and in agreement with what to expect in the final documents. Therefore our recommendation is for Board approval of the Willdan prepared Plans and Specifications and to proceed with Road Improvement Project bidding.
