

**Copper Valley Community Services District Special
Meeting of March 16, 2021**

AGENDA SUPPORTING DATA

7. DISCUSSION AND ACTION ITEMS

- e) Discussion regarding District responsibilities related to maintenance of trees adjacent to roadways and abatement of related safety and maintenance hazards

Recommended Motion

This item is for Board discussion and direction to staff. No specific action is recommended at this time.

Background

The District has historically maintained certain trees which are located adjacent to the road/right-of-way, and which are creating maintenance or public safety concerns, encroaching on sidewalks or streets. Although this practice is customary for the District and our community, performing work on private property, regardless of the purpose comes with certain concerns, including claims of property damage.

The primary purpose of this conversation is to determine the Board's collective interest in continuing this practice, and receiving direction on the creation of related policies or procedures which may be determined necessary.
